SUMMARY:

Basic Light brings a modern edge to your website with the current trend in larger type and more white space for maximum focus on content.

Basic Light is an elegant theme, it's carefully worked through, and support all default Elgg plugins and a few more.

The theme comes with three unique Color Schemes, and much more, which can easily be controlled from the theme options panel.

INSTALLATION:

Installing Basic Light is pretty straightforward, as with all Elgg plugins.

Upload the folder basic_light to www.yourelgginstallation.com/mod/ and enable the plugin in Elgg admin panel.

Go to Configure / Settings / Basic Light and configure the options.
